Supervision

Children’s safety and wellbeing is taken very seriously at our service. All educators and staff members will ensure that children are adequately supervised at all times, and that they can respond immediately to any child that is distressed, in need of assistance or support or in a dangerous situation. This includes during transition periods throughout the day when children may, for example, be changing rooms or groups, moving between outdoor and indoor environments, arriving or leaving the service, moving from service vehicles to the service premises, leaving or returning from excursions, moving to meal areas, washing their hands, or using the toilet or nappy change facilities.

To achieve this outcome educators will be alert, aware and in sight and sound of all children for whom they are responsible. Educators supervising outdoors must position themselves to see as much of the play area as possible, and follow any playground supervision plans if relevant. They will also actively engage with children and not stand back and watch. Educators working directly with

children must focus on the children and not other duties/activities. They will not group together in the outdoor environment except for brief, necessary discussions regarding the children.

In particular, children will be supervised:

- when resting or sleeping
- during hand washing and/or toilet times
- while undergoing toilet training (they will not be left unsupervised in the bathroom)
- at the table when eating
- in any areas where risk is increased
- during any water activity (at least one educator close at all times)

To ensure all children are accounted for during transitions between environments or rooms, Room Leaders will ensure a copy of the daily sign in sheet or similar record is used to check that all children under educators' supervision have made the transition.

There may also be times when minimum ratio requirements are not sufficient to ensure children are adequately supervised. On these occasions the Nominated Supervisor will assess the situation and when necessary ensure there are extra adults present to ensure children's health, safety and wellbeing.

Issues affecting the adequacy of supervision include:

- the number, ages and abilities of children
- the number and positioning of educators
- each child's current activity
- areas where children are playing, in particular the visibility and accessibility of these area
- risks in the environment and experiences provided to children
- the educators' knowledge of each child and each group of children
- the experience, knowledge and skill of each educator.

Educators will ensure team members know when they leave the room or area, or finish their shift, and are aware of any particular issues that may require additional oversight of children. They will do this verbally and there must be acknowledgement by the other educator prior to leaving the environment. The register of educators working with children will be completed if the educator is leaving for any length of time (see attached template).

To further ensure children are always adequately supervised the Approved Provider or Nominated Supervisor, and where relevant Room Leaders, will ensure:

- only educators working directly with children are included in the educator to child ratio

- students, volunteers and any educator under eighteen years is supervised at all times by an educator eighteen and over
- no child is ever left alone with a visitor/ unauthorised person
- they promote continuity of care when organising rosters and a regular pool of relief educators
- any educators on a meal-break in the Service return to duty to supply adequate supervision In any emergency situation where adequate supervision of children is threatened. Relief staff requirements will be reviewed if educators begin to be regularly recalled

Supervision and Interactions with Older Children

Older children (children aged above 13) sharing the premises with the Younger children (children 12 years and younger) will be guided on appropriate interactions. They will be instructed on child friendly and respectful relationships with the younger children.

The Responsible person will induct the Older Children on the first day of the program outlining appropriate interactions with peers and younger children. Their behaviour will be monitored and consistently supervised throughout the duration of the program. The induction will include: ensuring that children older than 13 years old are not left unsupervised near the younger children, ensuring that language and behaviour is appropriate and ensuring that the older children understand and respect that the younger children are under the direct control and supervision of the educators of the service.

- an approved provider
- a nominated supervisor
