

CHABAD Youth

WINTER PROGRAMS JUNE - JULY 2019

OVER 600 PARTICIPANTS!

This winter, Chabad Youth hosted 13 different camps and Shabbatons. All overnight programs were held at Feathertop Chalet, where participants were able to enjoy the beautiful snow fields of Mt Hotham.

Camp is so important for our youth.

A camp environment allows children to learn new skills in a safe and nurturing environment.

It affords the youth to have an opportunity to engage with other peers in a meaningful manner, learning and understanding who they really are as people. It offers a structured opportunity for children to grow, allowing kids to become independent and self-confident, while socialising and making new friends, and even learning new skills.

The girls experienced exciting adventure activities such as skiing, tobogganing, kayaking, bikeriding and hiking. These, coupled with fun night activities, sport games, laughter and art projects ensured the girls had a truly memorable experience.
